INFIXIA

School/College Website Design & Development

INFIXIA deals with school/college website design, development and hosting. The school/college website is the first place prospective parents or visitors go before they actually visit the school/college itself. Whether you want to create a new website from scratch or need to overhaul your existing school/college website then we have a solution to you. A school/college website is an effective tool for communication within the staff/students as well as interaction with the parents and other schools/colleges. In general ways it always required to update website contents due to various events declaration of Schools/Colleges. In this circumstances *INFIXIA* will provide you CMS based website with dynamic admin panel. You can update and share any time your website content like notice board, Picture gallery, new events and all kinds of information for students and parents. *INFIXIA* can provide an effective, feature-rich School/college website for a reasonable price.
SMS Facility

A mobile device has become an integral part of every individual. Parents, Staff, College Students, members of any organization all carry a mobile through which they can be communicated instantly. Sending a text message is a reliable and a cost effective way of communicating all events, holidays, students information, emergency information, reminders etc. in a school or a college. It not only saves time and money, but also makes the system more organized.

Some of the ways by which the SMS application can be used in schools colleges and institutions are:

◎ *Intimation of Daily Student Attendance to Parent(Arrival & Left)*
◎ *Reminder of last date for payment of fees*
◎ *Intimation of Fee receipt*
◎ *Examination/ Test schedules*
◎ *Any change of schedule*
◎ *Exam/test Results*
◎ *Schedule of Parents-Teachers meetings*
◎ *Seasonal and Personal Greetings*
◎ *Notifications and Alerts to School/College Staff*
◎ *Alert messages on various activities/ programs*
◎ *Alert Parents about ill /absent children*
◎ *Alerts in delays/cancellations of school/College buses*
◎ *Alerts at the time of emergencies*

INFIXIA has developed SMS integrated software which can be used in schools, colleges and any other organization where messages have to be sent to all or a group at once. The mobile numbers of the members like staff, parents, students etc. in the organization can be stored and grouped as required.

Online Admission & Fees Collection System

Technology is changing the way we live our life. It has added many comforts and various facilities, services have improved significantly. We can now book our railway tickets, bus tickets, airline tickets online sitting at home. We need not have to stand in long queues. Even we can order our lunch online for free home delivery. Technology can be used to improve various administrative and educational processes as well. Every day we get various news about dissatisfaction of the students, parents about various admission processes. Technology usage is minimal in admission processes. Pictures of long overnight queues of the parents for KG admission, long queues in the banks to collect college application forms of various institutes is the norm in India. Students, parents had to spend lot of time in filling admission forms of their ward. Sometimes there are errors of form misplacement by courier agency, institute authority. Then of course students, parents need to wait for the merit list. Compilation of the merit list as per caste, reservations, quota criteria is also big task in front of institutes. By this time I am sure long admission queues, chaos have come in front of you. As every one of us has experienced this situation at least once. Thanks to technology, now things are going to change in India. Now you will be able to even submit application form of any school, colleges online sitting at your home. Educational Institute can contribute in reducing global warming effects and thousands of trees can be saved due to saving in printing of admission forms, brochures, receipts etc. Online admission process also reduces administrative hassles, errors in processing admission forms. Computerized systems would be able to generate merit list, cut-offs with 100% accuracy. This will remove frustrations of students, parents for various errors, mismanagements of admission Online admission process also helpful in communicating final merit list, wait list, category wise merit list through email and sms communication. Even students, parents can make application form fee payment online using credit card, debit card, mobile payments etc. So common students, parents can get all the details on their mobile phone itself. It will reduce anxiety, stress of visiting institute, standing in queue, chaos to see merit list, cut off list. Overall Online admission can simplify processes and can remove long queues. Some of the organizations across India have come up with innovative solutions which can make entire admission process paperless and it will transform educational administrative process for whole India. Online Student Admission System is enables students to apply for admission through online. In this process college can reduce the number of physical visitors of students and their parents need to make to colleges as the admissions process gets underway. Students can access 24x7 also apply from any place with internet access to by avoid long queues and send their applications for online admissions.

INFIXIA

CCTV Surveillance System for School/College

There are a variety of situations in which CCTV cameras are used to provide surveillance, especially schools /colleges. Sometimes, in larger schools/colleges providing security guards but is not enough. It is not uncommon for some schools/Colleges to install CCTV security systems in their premises to monitor and keep track of all the activities that take place. This is usually done with complete awareness on the student's, parent's and teacher's parts. There are many benefits of using CCTV surveillance systems in schools and colleges.

Benefits

For School/College Security

◎ CCTV security systems help in preventing or identifying unauthorized intruders who enter the premises, thereby promoting school/college security.

◎ Keeping track of remote entrances and exits is easier through CCTV cameras.

◎ CCTV surveillance systems can keep track of housekeeping and ensure they are doing their work.

◎ CCTV security systems help organize exit in case of emergencies.

◎ School/College security measure to protect the property and identify perpetrators and vandals.

For Teachers

◎ CCTV surveillance systems help in the protection of staff vehicles.

◎ They keep track of teacher attendance and punctuality.

◎ CCTV cameras can help keep track of teacher's attitude and methodology in teaching.

For Students

◎ CCTV cameras aid monitoring and preventing bullying amongst students.

◎ CCTV cameras to ensuring discipline and punctuality amongst students.

◎ CCTV cameras Prevent or track student thefts.

◎ CCTV cameras Keep parents mind at ease about School/College security and environment.
